

Meeting Information	
Members Present	All
Date and Time	Wednesday, October 18, 2017
Location	ITB Lab room
Update on what happened since last meeting: <ul style="list-style-type: none"> <li>• created empty database using MariaDB</li> <li>• started working on encryption using Fernet (Python)               <ul style="list-style-type: none"> <li>• can encrypt password using key</li> </ul> </li> <li>• started GUI using tkinter (Python)               <ul style="list-style-type: none"> <li>• first screen layout</li> </ul> </li> </ul>	
Issues discussed this meeting: <ul style="list-style-type: none"> <li>• need to figure out how to save key &amp; encrypted password in database then use to decrypt</li> <li>• MariaDB might not be best to use for database</li> </ul>	
What to do until next meeting: <ul style="list-style-type: none"> <li>• Add working widgets to GUI, start next screen</li> <li>• Add tables and functions to database</li> <li>• Separate encryption functions to use for encrypting and decrypting (eventually with values from database)</li> </ul>	
Decisions made: <ul style="list-style-type: none"> <li>• use peewee for database</li> <li>• work on aesthetics after GUI functional</li> <li>• work on separate parts of project, and test then attach to GUI               <ul style="list-style-type: none"> <li>• I.e. first test plan is for individual components not integrated</li> </ul> </li> </ul>	

**NOTE:** This table will be converted to LaTeX eventually, after the issues with the first meeting minutes LaTeX table are resolved.
