Meeting information			
Meeting no	**Location**	**Meeting Date**	**Attendees**
3	ITB	2017-10-20	All

Update on what happened since last meeting?
- Changed database to sqlite
- Started using peewee to connect python to sqlite database
- Created Hashing Functions for encrypting and decrypting string
- Completed second screen layout

Issues discussed this meeting:
- allow users to distinguish between accounts using account types
- add hidden table to store hash keys for passwords
- add branches for git development for more abstraction in development.

What to do next meeting:
- create password generator
- create doxygen comments
- start TestPlans
- improve database relationships
- connect screens of GUI

Decisions made:
- start testing after TestPlans finish
- start on creation of Doxygen comments
